If you find any errors and/or omissions in the above, please send them to me so that I can make corrections.

The intent with this newsletter is to serve as a communication instrument between the participating schools, the sponsoring clubs and the YEP Committee. It will provide a venue to allow us to keep track of what each is doing and to possibly benefit from the experiences of the other schools.

Please give me your feedback on what we might include from your school and club that might be of interest to the rest.

All the best for your program.
